Sr. Dotnet Developer

Description

Job Title: Senior .Net Developer Location: Pune Experience: 6- 10 Years

Job Description

We are looking for a highly experienced Senior .NET Developer who can quickly onboard and contribute to critical project deliverables. The ideal candidate should be seasoned in .NET technologies with deep expertise in stored procedures, enterprise-level application development, and additional hands-on experience with Python for automation, integration, or data processing tasks.

Qualifications

Required Skills:

- ❑ Strong proficiency in C#, ASP.NET, .NET Core / .NET Framework
- ❑ Experience with ASP.NET MVC, Web API, and RESTful services
- ❑ Solid expertise in SQL Server and database design, queries, and performance tuning
- ❑ Hands-on experience with Entity Framework, LINQ
- ❑ Knowledge of object-oriented programming (OOP) and design patterns
- ❑ Experience with microservices architecture and API integration
- ❑ Familiarity with version control systems (Git, Azure DevOps)
- ❑ Understanding of Agile/Scrum methodologies
- ❑ Experience in debugging, performance optimization, and secure coding practices
- ❑ Ability to lead development tasks, perform code reviews, and mentor junior developers

Nice to Have (Optional):

- ❑ Cloud experience (Azure / AWS)
- ❑ CI/CD pipelines
- ❑ Working knowledge of Python
- ❑ Frontend frameworks (Angular / React)

Additional Skills:

- ❑ Python (good working knowledge)
- ❑ SQL and database expertise.

Additional Details:

- ❑ Urgency: Immediate onboarding required.
- ❑ Compensation: Open to paying a premium for the right senior-level talent.
