Sr Salesforce Lead

Description
We are seeking a highly skilled and experienced Salesforce Developer to join our dynamic team. The ideal candidate will have a strong background in Salesforce development, extensive hands-on experience with Experience Cloud, and deep knowledge of Git and Salesforce DX (SFDX). As a Salesforce Developer, you will be responsible for designing, developing, and implementing customized solutions within the Salesforce platform to meet the unique needs of our business.

Responsibilities

- **Design & Development:** Develop custom Salesforce applications, features, and enhancements using Apex, Visualforce, Lightning components, and other Salesforce technologies.
- **Experience Cloud:** Utilize hands-on experience with Salesforce Experience Cloud to create, configure, and maintain community portals and digital experiences.
- **Integration:** Integrate Salesforce with other internal and external systems using APIs, web services, and middleware.
- **Customization:** Customize Salesforce applications including Sales Cloud, Service Cloud, and Marketing Cloud to fit business requirements.
- **Code Management:** Utilize Git for version control and SFDX for Salesforce development lifecycle management, ensuring code quality and consistency.
- **Collaboration:** Work closely with business stakeholders, project managers, and other developers to gather requirements and translate them into effective Salesforce solutions.
- **Testing & Deployment:** Perform unit testing, integration testing, and support user acceptance testing (UAT). Deploy solutions using SFDX and CI/CD pipelines.
- **Documentation:** Maintain clear and concise documentation of developed solutions and processes.
- **Support:** Provide ongoing support and maintenance for deployed solutions, addressing any issues and optimizing performance.

Qualifications

- **Experience:** Minimum of 7+years of hands-on experience in Salesforce development.
- **Experience Cloud:** Proven hands-on experience with Salesforce Experience Cloud (Community Cloud).
- **Technical Skills:**
    - Strong proficiency in Apex, Visualforce, Lightning Web Components (LWC), and other Salesforce technologies.
    - Deep knowledge and practical experience with Git for version control.
    - Extensive experience with Salesforce DX (SFDX) for development and deployment.
- **Certifications:** Salesforce certifications such as Salesforce Certified Platform Developer I & II, Salesforce Certified Experience Cloud Consultant, or equivalent are highly desirable.
- **Tools & Technologies:**
    - Familiarity with tools like VS Code, Salesforce CLI, and other
