Tech Project Manager

Description
Experience:10+

Location: Pune

Project Management Professional (PMP), PRINCE2, or Agile certifications (CSM, SAFe, etc.).

•Experience with cloud technologies, APIs, DevOps, or enterprise IT systems.

•Prior background as a developer, engineer, or technical lead is a plus.

•Familiarity with risk management and compliance in technology projects.

Responsibilities
Lead end-to-end project lifecycle, including initiation, planning, execution, monitoring, and closure.

•Collaborate with cross-functional teams (engineering, QA, design, product, business stakeholders) to define project scope, goals, and deliverables.

•Create and maintain detailed project plans, schedules, budgets, and resource allocations.

•Manage project risks, dependencies, and issues while ensuring timely resolution.

•Facilitate effective communication between technical and non-technical stakeholders.

•Track and report project progress, KPIs, and milestones to leadership and stakeholders.

•Ensure adherence to project management methodologies (Agile, Scrum, Waterfall, or hybrid).

•Support change management and ensure smooth adoption of delivered solutions.

•Drive continuous process improvement in project management practices.

Qualifications
Bachelor's degree in Computer Science, Engineering, Information Technology, or related field (Master's degree preferred).

•Proven experience (5+ years) managing technical/software development projects.

•Strong understanding of SDLC, Agile, and Waterfall methodologies.

•Proficiency with project management tools (e.g., Jira, Trello, MS Project, Asana, Confluence).

•Excellent leadership, organizational, and problem-solving skills.

•Strong communication and stakeholder management abilities.

•Ability to balance technical understanding with business priorities.
