### Description

Job Title: Tosca Automation Engineer

Location: Pune

Experience: 5+ years

### Hiring organization

Neutrino Tech Systems

### Employment Type

Full-time

### Date posted

August 13, 2025

### Job Summary:

We are looking for a skilled Tosca Automation Engineer with over 6+ years of experience in

designing, developing, and maintaining automated test scripts using Tricentis Tosca. The

ideal candidate will be responsible for ensuring the quality of complex enterprise

applications by integrating test automation into the CI/CD pipeline and collaborating with

QA, development, and DevOps teams.

### Responsibilities

#### Key Responsibilities:

- Design and develop automated test scripts using Tosca Commander.
- Create and manage reusable test modules and libraries.
- Integrate Tosca tests into CI/CD pipelines and Test Management Tool.
- Collaborate with Business Analysts and Developers to understand requirements and translate them into test cases.
- Implement and maintain test data management using Tosca TDM or external tools.
- Conduct root cause analysis of failed tests and report bugs in defect management tools

(e.g., JIRA, ALM, etc.).

- Execute regression, smoke, and sanity testing as part of agile sprints.
- Contribute to continuous improvement of test strategies, standards, and tools.

## Qualifications

Required Qualifications:

- 6+ years of experience in test automation using Tricentis Tosca.
- Hands-on expertise in Tosca Modules, TestCases, Requirements, TestSheets, ExecutionLists, Tosca Commandar.
- Good understanding of API Testing, Web UI Testing, and Database Testing using Tosca.
- Familiarity with Tosca Query Language (TQL) and Tosca BI/DS is a plus.
- Experience with test data management tools and techniques.
- Strong understanding of Agile/Scrum methodologies.
- Knowledge of CI/CD tools such as Jenkins, Azure DevOps, or GitLab.
- Strong analytical and troubleshooting skills.
- Excellent communication and documentation abilities. Cross team collaboration
- Strong understanding of SDLC and testing methodologies
- Experience working with Agile/scrum environment and version control like GIT
- API testing
- Agile collaboration tools like JIRA, XRay, confluence etc

Preferred Qualifications:

- Tricentis Tosca Automation Specialist Level 1 & 2 certification.
- Knowledge of other automation frameworks (e.g., Selenium, UFT) and programming language like Java /Python /C#

- Experience in banking, insurance, or healthcare domain is advantageous.
