

NEUTRINO TECH SYSTEMS

A modern glass skyscraper at night, with a large white 'X' shape overlaid on the image. The 'X' is formed by two white diagonal lines that intersect in the center. The background is a dark, blue-tinted photograph of the building's facade, with some lights visible in the lower right corner. The overall design is clean and professional, with a focus on geometric shapes and a color palette of orange, white, and dark blue.

About NEUTRINO TECH SYSTEMS

Neutrino Tech Systems, founded in 2018 in Texas, USA, is a cutting-edge IT solutions provider dedicated to transforming businesses through comprehensive services and solutions.

We aim to simplify your move to technology with a comprehensive range of digital solutions that enhance your business outcomes. With over 100 years of combined experience, we deliver exceptional services to global clients across various industries, including healthcare, supply chain and distribution, fintech, retail, and more, using a proven onshore/offshore delivery model.

With established partnerships with Fortune 500 companies, Neutrino Tech Systems has become a trusted name in the technology landscape. Serving over 250+ clients, our commitment to excellence and customer satisfaction remains unwavering.

PARTNERS

MISSION & VISION

Mission

With our deep domain expertise and a culture of innovation, we strive to design tailored solutions for our customers' needs and complement their success.

Vision

Our aspiration is to emerge as a globally trusted, successful, and customer-centric organization. Harnessing the potential of cutting-edge tools and technologies, we aim to set new standards, delivering unparalleled value and innovation. Through unwavering commitment and adaptability, we strive to be an industry leader, synonymous with trust and customer satisfaction.

CERTIFICATIONS AND MEMBERSHIPS

Our BELIEFS

• Diverse & Accountable Workforce

Our 300+ diverse, talented workforce drives innovation and is committed to meeting your unique needs. With experience from global SIs and Fortune 500 companies, we go the extra mile to deliver on our commitments.

• Our Commitment to ESG

We are deeply committed to Environmental, Social, and Governance (ESG) principles, integrating sustainability into our core operations. By focusing on responsible innovation and ethical practices, we aim to drive long-term value for our stakeholders while contributing to a sustainable and equitable future.

• Corporate Governance

We uphold good corporate governance, ensuring transparency and ethical practices.

• Industry Expertise

Our tailored solutions prioritize quality, leveraging expertise in emerging technologies across healthcare, life Sciences pharma, and logistics. We deliver exceptional service with strict adherence to industry standards.

• Excellence in Innovation and Technology

Our services meet the highest industry standards for precision and efficiency, with proven expertise in AI, ML, and Gen AI Analytics. Our dedicated team builds IPs and solutions to address challenges in automation, AI, and other emerging technologies.

Our SERVICES

Digital Transformation

- Cloud Migration and Management
- Data Analytics and Artificial Intelligence
- AI, machine learning, and big data analytics
- Business Process Automation
- Customer Experience (CX) Optimization

Artificial Intelligence

- AL, Gen AI, Machine Learning for AI
- Custom and industry-supplied LLMs for language generation and programming
- AI/MLOps, DevSecOps, Cloud Engineering
- Cognitive Automation
- Blockchain

Data Science & Analytics

- Expertise across Data Ecosystem, Niche and Rare Techs
- Expertise in building AI ML Model Designing, Scaling, Validation and Maintenance
- GCP Partners with Certified Engineers, Expertise across GCP Services like Airflow, Looker, LookML, DAG, Vertex AI, BigQuery, Apigee
- 50+ Associates skilled in Data Technologies

Digital Automation

- Cognitive Automation
- Robotic Process Automation
- Workflow Automation & Business Rules Engines
- IVR, Chatbot, Document Processing, Image Processing

Cloud and DevOps Engineering

- Cloud solutions in Healthcare AI
- Cloud app design, development & maintenance
- AWS, GCP & MS Azure
- Containerization and Container Orchestration
- DevOps Engineering, Tools & Technologies
- Security Integration and Automation

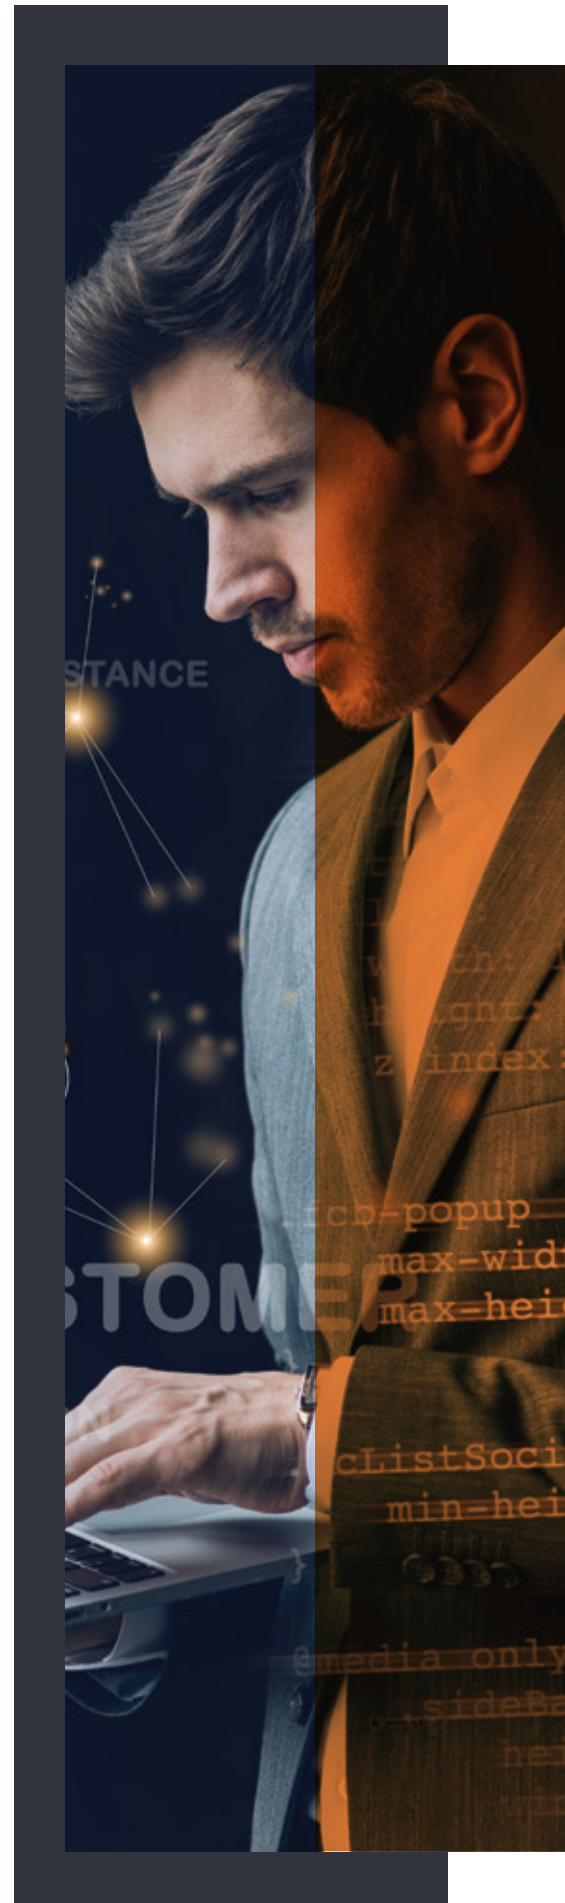

Product & SaaS Development

- Product Mindset and Approach towards App Development
- High Emphasis on creating reusable features with long term vision for Customer needs
- Experience of Developing and deploying solutions at Scale
- 100+ Associates in Product and AppDev Technologies spread across Developers, Architects, Tech-Functional Skills.

Salesforce & Enterprise Application Development

- Salesforce, Dynamics CRM, Oracle ERP
- MuleSoft, PCF, API Integrations
- ERP Architecture and Design Solution
- Agile methodologies, Scrum and Safe Agile

Our SaaS Solutions

Revolutionize Healthcare Coding with Our Comprehensive HCC Coding Automation Solution

Step into a new era of healthcare coding efficiency with our Comprehensive HCC Coding Automation Solution.

Key Features:

End-to-End Automation

From data extraction to code assignment, witness a seamless and fully automated workflow that significantly reduces manual intervention.

AI-Powered Accuracy

Our advanced algorithms analyze vast datasets, ensuring precise code assignments and reducing the risk of errors.

Code Inclusivity

Stay ahead of the coding curve with **CoeusCoder** a solution that covers an extensive range of Hierarchical Condition Categories (HCCs).

Instant Reporting

Monitor coding trends, identify areas of improvement, and ensure compliance through comprehensive reporting features.

Streamlined Integration

CoeusCoder seamlessly integrates into your existing Electronic Health Record (EHR) systems and healthcare workflows, without disrupting your established processes.

Benefits for Your Healthcare Organization

Increased Efficiency

Our HCC Coding Automation Solution, **CoeusCoder** allows your team to focus on critical healthcare tasks, enhancing overall operational efficiency.

Enhanced Accuracy and Compliance

Mitigate the risk of errors and penalties while maintaining the highest standards of coding precision.

Cost Optimization

Our solution streamlines the process, optimizing resource allocation and positively impacting your organization's bottom line.

Adaptability to Change

Our HCC Coding Automation Solution, **CoeusCoder**, adapts to industry changes, ensuring your coding practices are always up-to-date and compliant.

Value Proposition

60%

Effort Reduction

Transcribing HCC codes from medical charts made easy with up to 60% effort reduction!

30%

Error Reduction

Boost your HCC Code prediction accuracy by 30% with our NLP-powered solution!

3X

Throughput

Rev up your HCC Code analysis with NLP and AI-based solution for up to 3X faster throughput!

For inquiries and a personalized demonstration, contact us at sales@neutrino-techlabs.com.
Unleash the power of automation for a brighter, more efficient healthcare future.

Unlocking Efficiency and Precision: Introducing Our Intelligent Document Processing Solution- NIMBLEDOX.AI

Elevate your document management to unprecedented levels of efficiency and precision with our state-of-the-art technology

Key Features

1 Automated Data Extraction

Our IDP solution **NIMBLEDOX.AI** employs advanced algorithms and machine learning to automatically extract relevant information from documents.

2 Cognitive Understanding

Our **NIMBLEDOX.AI** goes beyond mere data extraction; it comprehends the context and meaning behind the information. NLP processing and cognitive understanding, it ensures that your documents are not just processed, but truly understood.

3 Adaptive Learning

Benefit from a dynamic tool that grows in intelligence, becoming more attuned to your specific needs and industry nuances over time.

4 Seamless Integration

NIMBLEDOX.AI seamlessly integrates into your existing infrastructure, whether it's ERP systems, CRM platforms, or other enterprise applications.

5 Robust Security Measures

Our IDP solution **NIMBLEDOX.AI** is fortified with robust security measures, ensuring that your sensitive information is protected at every step.

Benefits for Your Business

Enhanced Productivity

By automating time-consuming document processes, our **NIMBLEDOX.AI** frees up valuable resources, allowing your team to focus on strategic initiatives that drive business growth.

Error Reduction

Minimize the risk of human errors associated with manual data entry. Our IDP solution **NIMBLEDOX.AI** ensures accuracy and consistency, leading to reliable and error-free data.

Cost Efficiency

Streamlining document processing not only saves time but also reduces operational costs. Witness a tangible return on investment as our **NIMBLEDOX.AI** optimizes your document-centric workflows.

Agility and Scalability

Adapt to changing business demands with ease. Our **NIMBLEDOX.AI** is designed to scale alongside your business, providing the agility needed to navigate a dynamic marketplace.

Experience the Future of Document Processing

Empower your business with the transformative capabilities of Intelligent Document Processing. Revolutionize the way you handle information, elevate efficiency, and make informed decisions faster than ever before. Embrace the future today.

For inquiries and a personalized demos, contact us at sales@neutrino-techlabs.com. Elevate your document management – choose intelligence, choose success.

Kanfig: Empowering Your Infrastructure Journey

Unlimited Customization

Tailor your **KANFIG** experience with endless possibilities. Customize features, settings, and workflows to match your unique needs and preferences.

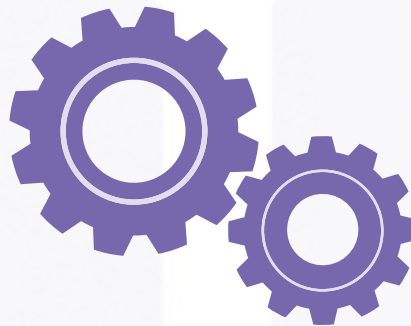

Multi-cloud Support

Whether you're on AWS, GCP, Azure, or even managing on-premises environments, **KANFIG** has the flexibility to support your needs across various cloud platforms.

Automation

Streamline tasks and boost productivity with automated processes. Let technology handle repetitive tasks, reducing manual effort and the risk

Hassle-free Infra Management

Build powerful, tech-agnostic infrastructure. Swiftly recreate production setups, ensuring minimal downtime for business continuity.

Time And Cost Effective

Get more done in less time while saving money. **KANFIG** maximizes efficiency, minimizing the resources required for your projects.

Custom Integrations

Effortlessly connect tools, ensuring seamless integration with existing workflows. Enhance compatibility and functionality for optimized operations.

Can Kanfig: Your DevOps Companion for Infrastructure Excellence

Experience a new era of effortless infrastructure management with **KANFIG**- A simple, user-friendly web based portal that empowers you to effortlessly create, customize, and duplicate production-ready environments with ease. Say goodbye to manual installations and lengthy setup processes. **KANFIG** streamlines your infrastructure management, reducing human errors and saving you valuable time. In short, with **KANFIG** you're in control – even if you're not a tech wizard. Whether you operate in multi-cloud environments or manage complex multi-tenant setups, our revolutionary application simplifies the process like never before. Unlock the power of streamlined infrastructure management with **KANFIG**.

Security You Can Trust

KANFIG is powered by Neutrino, an ISO 27001 certified, and HIPPA Compliant organization that offers you enterprise-grade security. With **KANFIG**, we ensure that your data is protected and impenetrable to unauthorized access.

PRAYAS - Neutrino's ESG Initiative

A helping hand can be a ray of sunshine in a cloudy world. We, at Neutrino, strongly believe in empathy. We understand our responsibilities – be it social, environmental, philanthropic, economic, or ethical. We are committed toward the society and the world that we breathe in.

Covid-19 Relief – Awareness And Relief Program

Atma Nirbhar Nari Campaign: Inauguration of Stitching Training Center for Underprivileged Women
